

Slide 1 – Title Slide

- ECOSOLAR SYSTEM

- BCA Final Year Project

- Submitted by: Aditya Sudhakar Dhage, Om Ramesh Beloshe, Shripad Suresh Surya

- Guided by: Miss Swati B. Herkal

- YCMOU Nashik | Year: 2025–2026

Slide 2 – Introduction

- | |
|--|
| • EcoSolar System is a web-based management system. |
| • It helps manage solar energy operations digitally. |
| • Maintains customer records and installation details. |
| • Handles billing, stock management, and maintenance. |
| • Reduces paperwork and improves efficiency. |

Slide 3 – Problem Statement

- | |
|--|
| • Manual record management is time-consuming. |
| • Billing and calculations may contain errors. |
| • Difficult to manage customer and stock data. |
| • Records are scattered and disorganized. |
| • Lack of user-friendly digital systems. |

Slide 4 – Objectives

- | |
|---|
| • Automate solar business operations. |
| • Maintain customer and installation records. |
| • Generate bills and reports quickly. |
| • Improve operational efficiency. |
| • Reduce manual work and paperwork. |

Slide 5 – Modules of the System

- | |
|--|
| • Admin Module: Login, Billing, Product Management |
| • Customer Module: Customer Details, Feedback Handling |
| • Stock and Transaction Management |
| • Complaint and Service Handling |

Slide 6 – System Requirements

- Hardware: Intel Core i3, 1 GB RAM, 40 GB HDD

- Software: Windows/Linux, XAMPP/WAMP

- Browser: Chrome / Firefox

- IDE: VS Code / Sublime Text

Slide 7 – Technologies Used

- | |
|--|
| • Front End: HTML, CSS, JavaScript |
| • Back End: PHP and MySQL |
| • Development Tools: VS Code and XAMPP |
| • Database: MySQL |

Slide 8 – Advantages

- | |
|---------------------------------|
| • Easy and efficient management |
| • Faster billing and reporting |
| • Better customer service |
| • Organized data management |
| • Improves productivity |

Slide 9 – Future Scope

- | |
|-------------------------------------|
| • Online payment integration |
| • Real-time solar energy monitoring |
| • Mobile application support |
| • Advanced report generation |
| • Cloud database integration |

Slide 10 – Conclusion

- EcoSolar System provides a smart and automated solution.
- Improves accuracy, efficiency, and security.
- Reduces manual efforts and saves time.
- Provides a user-friendly platform.
- THANK YOU
